

# Upload DIP to Memorix Archives

---

- **Stage:** Ingest
- **Microservice Group:** Upload DIP
- **Job:** Upload DIP to Memorix Archives
- **Input:** DIP Package
- **Output:** Success or Fail

## Description

The microservice takes DIP Package that was prepared by Archivemataca and schedules its upload in Memorix Archvies. The actual upload will start after a while by Memorix Archvies background worker: **ToPX Import** So archivemataca microservice is only responsible to schedule an upload.
